

In this section of your portfolio you should include:

- A description (IN YOUR WORDS!) about what evolution is (this should be a few paragraphs long not a simple statement)
- Describe at least four different lines of evidence which support the theory of evolution
- A comparison of Punctuated Equilibrium vs Gradualism
- Explain ways in which a gene pool can change
- An example of a dichotomous key (your own!)

The section is due: _____ *(this is also the test date!!)*

Marking:

- Completion of the required items: /3
- Depth of knowledge: /5
- Quality of the work: /2

TOTAL: /10
